

Junjie Li | Curriculum Vitae

 github.com/L-Jun-Jie |  Google Scholar |  ORCID

 junjieli2026@gmail.com |  Changsha, Hunan, China

RESEARCH INTERESTS

Satisfiability Modulo Theories, Constraint Sampling, Formal Methods, Program Analysis

EDUCATION

2026 – Present	- Hunan University Electronic Information
Ph.D. (Incoming)	Advisor: Prof. Yufeng Zhang
Changsha, Hunan, China	Research focus: Satisfiability Modulo Theories, Program Analysis
2023 – 2026	- Jilin University Software Engineering
M.Sc.	Advisor: Associate Prof. Yong Lai
Changchun, Jilin, China	Research focus: Satisfiability Modulo Theories and Sampling
2018 – 2022	- Shandong University of Technology Software Engineering
B.Eng.	
Zibo, Shandong, China	

PUBLICATIONS

[SMT\(LIA\) Sampling with High Diversity \[paper\] \[code\]](#) 2026
Yong Lai, Junjie Li, and Chuan Luo
Tools and Algorithms for the Construction and Analysis of Systems (TACAS 2026)
The author list has been sorted alphabetically by last name.

PROJECTS

HighDiv [code]	2023 – Present
An SMT(LIA) sampler for high-diversity solutions.	
- Integrates CDCL(T) with local search for high-diversity SMT(LIA) sampling. - Introduces a boundary-aware move operator to balance scalability and randomness.	
EDA Sampling [code]	2023 – 2024
A BDD-based sampling tool for SystemVerilog constraints.	
Builds BDDs for SystemVerilog constraints and samples satisfying assignments from the resulting solution space.	

SKILLS AND TOOLS

Formal Methods & Verification	Satisfiability Modulo Theories, Program Verification
Programming Languages	Python, C++
Tools & Frameworks	Z3, Bitwuzla, KLEE

LANGUAGES

Chinese (Mandarin)	Native speaker
English	College English Test Band 6 (CET-6)

INTERESTS

Hobbies Reading, Music, Traveling
